O. K. N. G.

Our chief engineer decides whether we buy a used machine or not-whether we make the desired deal with the man who wants a Peerless.

N. G. (no good) settles the matter. A machine of that type cannot shelter or sell under Peerless reputation.

O. K. means that we buy; it means our engineer has protected us by a rigid physical examination; it means he protects you in the ultimate sale.

Our booklet, "Buying a Used Car With Safety," shows you are safe when you buy

The following are substantial values:

A Peerless two-power range eight-cylinder Sedan Coupé, Touring Car and 4-passenger Roadster.

An assortment of cars of other makes in open and closed-body types, including CADILLAC, PAIGE, CHANDLER, OLDSMOBILE, STUDEBAKER, Burck, Donge and others.

We will cheerfully CERTIFY IN WRITING the condition of any used car we sell.

The Cost of Producing a Good Used Car

No one would think of trying to "beat down" the price of a new car, fresh from the factory, because the purchaser realizes that it represents a definite value-based on the cost of production.

It is equally impossible to buy a Sweeten Used Car for less than the price at which it is quoted, because the Sweeten One Price Plan is based on actual cost of production, too.

After we accept a used car, it is gone over with meticulous care, and all necessary repairs are made to insure it giving good service.

Then the cost of this work is added to the amount we allowed for the car as we received it. The total our cost of production—is our resale price to you; a price that is absolutely consistent with the condition of the car.

Send for our "Used Car Bulletin" containing attractive list of used cars of known value.

Sweeten Used Car Clearing House 338-340 North Broad Street
